

Rare Disease Day Information Pack

What is Rare Disease Day?

Rare Disease Day is the official international awareness-raising campaign for rare diseases. Rare Disease Day takes place on the last day of February each year. The main objective of the campaign is to raise awareness amongst the general public and decision-makers about rare diseases and their impact on patients' lives.

Rare Disease Day was launched by EURORDIS-Rare Diseases Europe and its Council of National Alliances in 2008.

HOW TO SHOW YOUR SUPPORT FOR RARE DISEASE DAY 2020

RAISING AWARENESS OF WHAT IT MEANS TO BE RARE

There are over **300 million** people worldwide living with a rare disease. Together across borders, and across the 6000+ rare diseases we work towards **more equitable access to diagnosis, treatment, care and social opportunity.**

Rare is many. Rare is over 300 million people around the globe.

Rare is strong. The rare disease community joins together across borders and diseases to raise awareness and advocate for equity.

Rare is proud. Show your support for the rare disease community with pride! The likely truth is that you know one of the 1 in 20 people affected by a rare disease.

It's time to take action to build a society where people living with a rare disease have equal opportunities to realise their potential.

FIND SOME INSPIRATION BELOW FOR IDEAS TO TAKE PART IN THIS YEAR'S CAMPAIGN.

1. **Share a photo to show solidarity** with people living with a rare disease in your community! Share a photo with a raised and painted hand on social media using #RareDiseaseDay and tag @rarediseaseday.
2. **Download the Rare Disease Day logo and make it visible at events.** Here the logo on flyers, on balloons, t-shirts and even cake- the possibilities are endless!
3. **Use key rare disease statistics¹** to share the message that rare is many to the media.

¹ Research recently published in the European Journal of Human Genetics, article authored by EURORDIS-Rare Diseases Europe, Orphanet & Orphanet Ireland "Estimating cumulative point prevalence of rare diseases: analysis of the Orphanet database". The analysis is of rare genetic diseases and is therefore conservative as it does not include rare cancers, nor rare diseases caused by rare bacterial or viral infectious diseases or poisonings <https://www.nature.com/articles/s41431-019-0508-0>

- 300 million people living with a rare disease worldwide
 - Over 6000 different rare diseases
 - 72% of rare diseases are genetic
 - 70% of those genetic rare diseases start in childhood
4. **Advocate to policy-makers** that people living with a rare disease need equitable access to diagnosis, treatment and care. For more information on advocating for rare diseases as part of Universal Health Coverage see a [position paper from Rare Diseases International](#).
5. **Share the new campaign materials** soon to be available in the [downloads section](#).
6. **Add the official twibbon and Facebook frame** to your social media profiles!
- Twibbon: <https://twibbon.com/support/rare-disease-day-2020/twitter>
 - Facebook frame: https://www.facebook.com/profilepicframes/?selected_overlay_id=1346512848851999

GET INVOLVED ON SOCIAL MEDIA

Share videos and photos from your Rare Disease Day events on social media platforms using **#RareDiseaseDay** and tag **@rarediseaseday**. Share an image on your own or with your friends, family or colleagues!

Use **key rare diseases²** statistics to share the message that rare is many to the media.

- 300 million people living with a rare disease worldwide
- Over 6000 different rare diseases
- 72% of rare diseases are genetic
- 70% of those genetic rare diseases start in childhood

FOLLOW US!

Stay up to date with the latest news from this year's Rare Disease Day campaign by following us on [Facebook](#), [Twitter](#) and [Instagram](#).

Add the official [Facebook frame](#) and [Twibbon](#) to your profile photos!

SHARE THE OFFICIAL VIDEO AND POSTER

Promote Rare Disease Day across your social media channels by sharing the official [Rare Disease Day poster](#) and [video](#) with your friends and followers using **#RareDiseaseDay**.

ORGANISE AN EVENT

Every year, thousands of events are organised around the world to mark the occasion of Rare Disease Day.

Organise an event during or around the month of February for Rare Disease Day to raise awareness of rare diseases in your community.

Ideas to get you started:

- Host a meeting, workshop or conference
- Hold an art, photography or essay-writing competition
- Organise a walk or march
- Plan a sporting or fundraising event
- Invite policy makers to a political event or present a manifesto to your local authorities

POST YOUR EVENT

Once you have organised your event, [share it](#) on the on Rare Disease Day website so it can be added to the map showing events taking place worldwide for Rare Disease Day.

Don't forget to upload photos and videos of your event afterwards!

COMMUNICATE ABOUT YOUR EVENT

Use the official Rare Disease Day [download materials](#) when promoting your event.

4

BECOME A FRIEND

[Sign up](#) to Become a Friend of Rare Disease Day to show your organisation or company's support for the campaign. To Become a Friend, you need to fill in your details to create your profile page featured on the Rare Disease Day website. Don't forget to include details about your Rare Disease Day activities!

5

TELL YOUR STORY

Join the movement to raise awareness about rare diseases and their impact on patients' lives by [sharing your story](#) of living with a rare disease or caring for someone that does.

You can submit a written or video testimony on the Rare Disease Day website and [read](#) the stories already uploaded!

As well as holding events you can take action in your country, region or local area to raise awareness of rare diseases!

Every year Rare Disease Day is centered around a theme reflecting the advocacy priorities of the rare disease community.

CONTACT THE PRESS

Reach out to local or regional newspapers and radio stations to get coverage of your event for Rare Disease Day.

Send out a press release to media in your area, highlighting the issues most important to rare disease patients in your country.

GET POLITICAL

Write a letter to key decision makers about the important issues facing rare disease patients in your country, and urge them to make rare diseases a priority!

Advocate to policy makers that people living with a rare disease need equitable access to diagnosis, treatment and care. For more information on advocating for rare diseases as part of Universal Health Coverage see a [position paper from Rare Diseases International](#).

Invite politicians to visit your organisation, attend an event your hosting or to visit a rare disease research laboratory. Encourage your MEP to join the network [Parliamentary Advocates for Rare Diseases](#).

FAMOUS FACES

Approach celebrities in your country to join the rare disease cause and show support for Rare Disease Day by sharing a [#RareDiseaseDay](#) post on social media.

However you and your friends, family and colleagues participated in Rare Disease Day, don't forget to [share your photos](#) from your activities around the world with us by uploading them to the Rare Disease Day website!

8

DOWNLOAD COMMUNICATION MATERIALS

There are a variety of resources to support you in your Rare Disease Day activities available to [download](#) from the Rare Disease Day website.

The **official Rare Disease Day communication materials** and logo are free to use when promoting your Rare Disease Day events.

Also available to download:

- [The official Rare Disease Day poster](#)
- [The official Rare Disease Day logo](#)
- [Website countdown](#)
- [Flyer](#)
- [Rare Disease Day style guide](#)
- [Fonts](#)

History of Rare Disease Day

Created by EURORDIS and its Council of National Alliances, the very first Rare Disease Day took place in 2008 with events in 18 participating countries.

EURORDIS continues to coordinate the international campaign together with a worldwide patient community. Patient organisations from North America joined in 2009 and then all continents by 2010. National Alliances ensure the coordination of Rare Disease Day at a national level, working with patient organisations locally and often organising a national event aimed at policy makers.

The number of participating countries has increased year on year, with **thousands of events** taking place on all continents for on or around the month of February. In total, events have taken place in over 100 countries since 2008.

Disclaimer: Rare Disease Day must not serve to promote any specific commercial interest and no visibility should be given to any products.

For information on using the Rare Disease Day logo please read the [conditions of use](#) and the [style guide](#).
